Subject: GKM - Navajo - update

Navajo Nation (or NNEPA - their lawyers are still trying to figure out who it should come from) will be issuing a public notice (no swimming, drinking, livestock, etc) in the san juan river. I asked NNEPA water to pull a preliminary sample (sediment and water), which they did. We should be prepared to support a larger sampling effort. If and when this notice goes out, I'm assuming it will require a large sampling effort to 'lift' the notice.

I've also received a call from Dr. Benn. He has requested to be a part of the Region 6, 8, 9 coordination call at 3pm our time. I'm going to reach out to region 8 and ask, but I feel it would be better to coordinate directly with Navajo. Thoughts?

Thanks,

Randy B. Nattis
